

Abby Allgood age 19 - New Gold Distributor!

I joined Kleeneze whilst at college doing my A level exams as it looked like a flexible way of earning enough money to get some driving lessons. I had always planned to go straight to university & left college with fantastic grades however decided to put that on hold for a while as I very quickly saw the potential of taking time to build a substantial Kleeneze business which would then produce long term profitability & time freedom. Such an unconventional idea that most of my friends, teachers & extended family thought I was crazy!

Below are my last two consecutive cheques showing a one thousand pounds pay rise in just four weeks!

What other job could I get right now, as a 19 year old, where I work part time from home & earn more than the average person's full time wage & also put myself into qualification for a free 5* luxury holiday to Miami?

My friends that went straight to University are in lots of debt & are worried about not being able to find a job after. I have lots of money invested in savings, no debt, & am excited about my future!
