

Alan & Katy Threlfall

In 2008 I left my senior administrator's job partly through illness and partly to spend more time with my two boys. Katy was a full time school teacher and we were paying over £800 per month on nursery fees. I was looking for something I could do from home that had flexible hours so I could work round the children. Then in May 2008 we received a Kleeneze catalogue through the door, I did some research and found the Opportunity video and from that moment I knew this was the company for me. I placed an order and when the distributor came to deliver the goods I told them I wanted to get started.

Katy joined me in the business in November 2009 and since joining Kleeneze we've had another baby, Thomas (born Feb 2009). I've also been diagnosed with an illness called Fibromyalgia, which leaves me suffering from profound fatigue and pain, similar to M.E. but because Kleeneze is so flexible and I'm my own boss I can work round any health or family issues that come up.

This was most definitely put to the test in July 2010 when I was rushed into intensive care with multiple blood clots on both of my lungs. For the next couple of months Katy ran the business by herself whilst looking after the 3 children, me and doing her full time job but because of the flexibility we have with Kleeneze, we could do it! We also had loads of help from our Upline Steve & Annie Formby who are fantastic.

In March 2011 Katy resigned from her teaching position so that she could spend more time with our children and put more hours into our Kleeneze business. We are now strengthening our customer base and increasing the size of our team simply by showing more people how to do what we've done.

Whatever you want from Kleeneze whether it's money, holidays, cars or like us you want the time freedom to be there for your children, you can have it as long as your prepared to follow the proven system and put the work in, Kleeneze really works if 'you' do!
