

Claire and Karen Holgate - Daughter and Mother Duo

After falling ill 3 years ago I struggled to find a conventional job that I was able to do flexibly. I had already decided to return to studying but also needed an income to support this. I joined another networking business (Avon) but soon realised I was limited to the income I could earn. I came across Kleeneze on the internet and could see there was real money to be earned. Through attending the seminars, I saw that it was possible to earn a lifelong income. The flexible hours and no boss means that I am able to work around my illness which a conventional job could not allow me to do. On top of which I can earn an unlimited income and now have a future I can be excited about.

I joined Kleeneze 5 or 6 years ago but never really understood the potential. Consequently, I left after a few months. I rejoined to support my daughter and to maintain the business when she couldn't. However, I began to see the lifestyles, friendships and more importantly the family time that was possible through Kleeneze and soon became 'addicted'. Kleeneze can provide so many financial and personal opportunities and has allowed us to support my youngest daughter in achieving her ambition to play international ice and roller hockey.
