

Emma Kyffin - Lawyer and mum of two, Sheffield

I had been a solicitor for 7 years when I started my Kleeneze business in September 2011 and it has already changed my lifestyle drastically. I had always worked long hours in my legal career and was very ambitious. However, when I returned to work part-time after having my two children, it seemed as though the rug had been pulled from under my feet. My career prospects had vanished and I found that the job could not fit around my family life. I was leaving home before the children were awake and arriving home after they had gone to bed to then catch up on the endless washing, ironing, cooking and cleaning. There was also the aftermath to deal with if I dared to take time off to look after my children when they were sick!

After 6 months, I was depressed and knew I needed a change. I trawled the internet, looking for something I could do part-time from home. There were many options but Kleeneze was the one with the best reviews and I knew the brand name. I requested an information pack and my initial comment to Tracy Sheehan was "it sounds too good to be true". However, I saw the potential for the business and joined straight away!

I earned £232 in my first 3 weeks which put me straight into profit and my income is increasing every month. Some friends and relatives were sceptical at first but they have all commented on how much happier I am since I have been in the business. The flexibility to work when you like and earn what you like really is life changing. This business has given me the confidence and financial opportunity to leave the "rat race" behind!

When I decided to join Kleeneze, I wanted to earn £300 per month. However, with the help and support of my fantastic sponsors Michele and Brian Hewitt I now have no doubt that I can replace and even exceed my solicitor's income by working my business part-time around my family.

The Certificate of Income shown below is the official Kleeneze payment for the 4 - week period number 201110
