I got started in Kleeneze in May 2006 and was making some good money part time around my full time job. I became extremely disillusioned with the job world and needed to make some changes in my life to improve my situation. I made the decision that I was going to leave my job at the end of September 07 and focus solely on my Kleeneze business. In my first month I have been able to earn more than most people would in a month working their full time jobs, whilst at the same time having the freedom to choose how and where I spend my time. A very good income can be created in a very short space of time and this gives you the ability to replace a wage.
