

## Ian & Pauline Pilkington

When we joined Kleeneze Lauren was 10 and Karl was 11 months old, I was working for a leading motoring organisation as a breakdown patrol and Pauline was working as a clerk for the social services. I only went to the presentation to "make up numbers" for a work colleague, I was very sceptical after being involved with other multi level companies and losing money, but I immediately saw the potential of Kleeneze and signed there and then but thinking how I could break the news to Pauline when I got home.

We looked at the business as a way to earn an extra £200 per month just to help pay for Karl's childminder bill, we worked Kleeneze part time around our very full time jobs, we recovered our outlay within the first couple of weeks and realised how easy and flexible the business was and could be run around a complex shift pattern.

In 2005 I decided that 21 years of shift work and family disruption was enough and left work to go full time with Kleeneze, not an easy decision, but by now we had learned enough about the business to see a way of life outside the rat race so we started to get start on the networking side building a small team to increase our income.

Now with the freedom Kleeneze has given us we realise how much of a pain working shifts was, especially working 3 out of 4 weekends, we now get to see the kids more and attend family functions together. We have also met a great bunch of distributors, some becoming very good friends.

We only have one regret. . . no one showed us the Kleeneze opportunity years ago.
