

I joined Kleeneze not long after my 18th birthday, while employed full time to help towards my car insurance, I put books out at weekends, and took cards to work with me while travelling around the country, my mum & dad have been in Kleeneze for a few years and so I just knew it would work, the biggest and most important thing I have done is attending ALL the meetings, “so I'm learning while I'm earning,” which will help me build my confidence, I know I can replace my full time Income with Kleeneze and am working towards a financially better future with the time freedom to enjoy life, one of my biggest goals is to travel to Australia to visit my uncle and spend six months with him without worrying about the cost.

PAY: <u>MR J TYLER</u>						Date: <u>09/05/2013</u>
