

Juliet Putter

I started Kleeneze in April 2012, I wanted a job that I could work in my own time, as I suffer with various illnesses and would not be able to hold down a regular job. I got an information pack from Trevor my sponsor, I read the pack, I then asked George (my Hubby) to look at the information, & together we decided we would give it a bash. Initially I did the retailing on my own, but unfortunately, my poor health meant that I found it very difficult. I will admit at that point I contemplated leaving, but the support from my husband & from Trevor, encouraged me to continue.

MY FIRST CHEQUE £225.87, this amount shows what I made for this month, (September 2012) now we are talking, and this is because I hit my 10% mark, wow this is all worth the hard work without George I really could not have done this, I am delighted and over the moon, I realised now that I have moved up 1 notch..... Now to the next step the 13%, this really has worked for me.

My success story will most probably get longer in a year's time, but for now it is a way forward for me.
