

Paul and Tina

Paul joined Kleeneze in May 2010 after quitting his stressful Management role in a Brewery for a job on the shop floor working shifts. His intention was to work a few hours a week to make up the drop in his salary. Paul managed to earn £200- £250 a month

Tina sacked her boss in January 2012 and left her even more stressful Customer Services Team Leader role to work full time in Tina and Paul's Kleeneze business.

In their first period working together they did over £2000 in sales and earned themselves a pay cheque from Kleeneze of £587!

Just 7 months later they hit a major milestone on their journey when they achieved the 18% bonus level by retailing over £3000 themselves and with the help of their growing team earned a Kleeneze cheque for over £1000!!

Paul and Tina's immediate plans are to continue to build their customer base and their team, so that they get to GOLD & on that plane to Dubai this year!

In a couple of years Paul can see them earning enough from their Kleeneze business so that he can too sack the boss and go full time on Kleeneze. From there the sky's the limit. Onwards and upwards towards financial freedom!
