

Richard & Tracey Ford

My wife & I work our Kleeneze business part-time around our 2 children, Ashley 2 & Mark who is 3. I had been unemployed for a while & was looking for work but was struggling to find something that would work around the family, especially as our son Ashley had been diagnosed with a rare genetic disorder & we were in and out of hospital all the time.

Tracey Payne kept coming to see her dad (my neighbor) & I heard her talking about Kleeneze a lot, I was interested but very skeptical. My mind changed when Tracey's dad said he had got started & I could see his results coming in. I decided to try it for myself

We started building a good customer base. We had the usual challenges of other distributors in the area. We were advised to carry on anyway. We now have a good customer base coming together & have just hit our first 10% bonus cheque!

We know this is only the beginning and Kleeneze will change our lives for the future
We believe that if we keep focused and refuse to give in then Kleeneze will support our family

**It's the best decision we have made...and we
can help you too!!**
