Nicky and I joined Kleeneze in March 2001, purely to make an extra £200 per month in our spare time, around our Fire Service careers. We were shown a system so simple to follow, and too good to be true, that we decided to give it a go just to prove it couldn't work. The reality of what happened was somewhat different. Within 18 months of joining, our income had gone way past the original £200 we had hoped to earn. In July 2002, Nicky and I qualified as Gold Distributors, with a four weekly cheque of over £1,300. Not only this, but we also qualified for an all expenses paid trip to Monte Carlo. Wow!! And that's an understatement.

Since then we have gone on to qualify for a further two holidays in Athens and Rio de Janeiro, our cheque is now over £2,000 every four weeks, and as an added bonus we now have a fantastic team of people who have become very close friends.

The Kleeneze business is so flexible that we have been able to run it purely at our own pace and very much part time (15 – 20 hours per week). It has changed our lifestyle considerably, enabling us to move house twice, change our car and provide things for the family, that our Fire Service income alone was unable to do. On top of this, it has allowed Nicky to go part time, bringing her closer to her goal to retire from the 'job thing'.
