

**Pat & Helen Loftus – Testimonial**

After 19 years working for a leading motoring organisation I was becoming increasingly disillusioned with the job and concerned with what may lay ahead if I stayed with the company. The job I used to enjoy for many years had become a minefield of stats, targets, sales and fighting to get holidays at the same time as my family.

Granted I was earning a good wage but I realised I was sacrificing my family to achieve it and could only see things steadily worsening as time went by.

I realised how bad things had become when my five year old son was leaving for school one morning and said “see you tomorrow dad”. I couldn’t believe I had let things get to a stage where my sons accepted the fact that they would only spend a few minutes a day with me because of my work commitments.

That morning I decided that things needed to change and soon but I had not got a clue at this point how I was going to manage to earn what I needed to and yet have the flexibility to spend more time with my family.

Two weeks later whilst at work attending a flat battery breakdown on a Rolls Royce I was fortunate enough to be shown Kleeneze by one of the leaders in the business.

After 18 months following the simple system and a bit of hard work our income from Kleeneze had reached a level that I was able to quit my full time job.

We now work Kleeneze **part time** around the family, take our holidays when we wish and our income and business are growing steadily.

Two of my work mates have joined my team, also been able to quit their full time jobs and are now experiencing the freedom and incomes that are available. The same opportunity is available to anybody and I urge you take a serious look at Kleeneze **unless you want the next five years to be the same as the last!**
